

## POSITION AVAILABLE

### Project Archaeologists

---

PAL is the leading cultural resource management and historic preservation planning consulting firm in New England. Our outstanding reputation within the CRM industry springs from more than 30 years of high-quality performance in support of over 4,000 development and planning projects. Our office and laboratory facility is located off Interstate 95 near the RI-MA state line and provides easy access to the greater Providence and Boston metropolitan areas.

We are currently seeking experienced Project Archaeologists to join our core team of 50 historic preservation professionals including archaeologists who specialize in pre-contact and post-contact (also industrial and urban) resources throughout New England, New York, and New Jersey. Come join our highly-motivated and dedicated staff to help record and protect our heritage for future generations! We also enjoy many opportunities to work on public education projects for municipalities and private entities.

#### **Duties and Responsibilities**

- Directing field teams on assessments, surveys, and excavations
- GPS and Total Station survey and mapping
- Data analysis and interpretation
- Cultural material – artifact identification
- Adhering to state and federal regulatory standards and guidelines
- Adhering to project-specific field methods and safety protocols
- Conducting thorough, accurate, and well-documented research
- Creating professional written work products on time and within budget
- Supervising and evaluating the performance of field staff

#### **Job Requirements - Qualifications**

- M.A. in archaeology, anthropology, or a related field
- 2+ years of experience supervising fieldwork and preparing written reports in CRM (Section 106 and state authority compliance)
- Strong research, field, and cultural material identification skills in the eastern United States, preferably in the Northeast
- Excellent organizational, written, and verbal communication skills
- Pro-active and problem-solving approach to research and field issues
- Experience with relational database applications, preferably in networked Windows environment
- Ability to travel for project assignments
- A valid driver's license and the ability to relocate to southern New England for a combination of local and non-local projects throughout the Northeast
- Ability to pass a background and security check as required by clients
- Proven record of adherence to workplace safety standards

PAL offers highly competitive pay and provides a comprehensive suite of benefits including medical, dental, vision, disability, life, retirement savings, and medical spending accounts to promote health and financial stability to our career employees. We seek motivated self-starters who are willing to work hard, communicate effectively, and make a strong contribution to our professional team. Your work will be key to achieving and exceeding our client goals and objectives.

PAL is an Equal Opportunity Employer

Qualified applicants should submit a resume to: [oadmin@palinc.com](mailto:oadmin@palinc.com) and include *Project Archaeologist* in the email's subject line.
